PROFESSIONAL SUMMARY

Product Designer with 4+ years of experience delivering measurable impact through end-to-end design, from user research and product strategy to developer handoff and post-launch iteration. Experienced across fintech, edtech, and travel products in West Africa and Nigeria, I work closely with product managers and engineers to create solutions that improve adoption, conversion, and user experience. My experience spans both early-stage startups and established financial institutions, allowing me to move quickly, solve complex problems, and make informed design decisions in fast-paced environments..

EXPERIENCE

AdmiQ Consult · Accra, Ghana

Sep 2024 – Present

Product Designer

- Owned graphic design end-to-end for AdmiQ's clients from brand discovery through final asset delivery typically as sole designer on each engagement.
- Developed brand identity systems (logos, color, typography, brand guidelines) tailored to each client's positioning and audience.
- Designed social media post templates and content, giving clients a consistent, on-brand presence across channels.
- Produced marketing and digital assets from concept through final delivery supporting client campaigns and product launches.

Polaris Bank Limited · Lagos, Nigeria

Oct 2023 – Feb 2024

UX Designer — Digital Marketing Team

- Designed responsive mobile and web interfaces for Polaris Vulte (polarisbanklimited.com), a flagship digital banking product serving thousands of customers.
- Developed and maintained a financial-sector design system, ensuring brand consistency across 10+ product screens.
- Worked with the Digital Marketing team to A/B test landing page variants, sitting in on analytics reviews and feeding results directly back into design iterations.
- Pushed WCAG 2.1 AA accessibility standards on the team not as a checkbox, but built into component specs which contributed to a 20% drop in usability-related support tickets post-launch.

Optisoft Technologies · Lagos, Nigeria

Nov 2020 – Jan 2023

Lead Product Designer

- Served as lead designer, owning concept-to-delivery design for 5+ products including National Conversation Foundation, Broad Kapital, VitalFeeds, and E-Transit.

- Spearheaded UX research and design for a mobile and web property management platform, enabling landlords to manage portfolios remotely product acquired 500+ beta users within 3 months of launch.
- Worked in a cross-functional team of 8 engineers, PMs, and external stakeholders shipping 3 major product releases on schedule by keeping design decisions documented and handoffs clean.
- Built reusable design systems and component libraries that reduced design time on new features by ~25%.

Wakanow · Lagos, Nigeria

Dec 2019 – May 2020

Product Designer

- Redesigned the Wakanow landing page and booking flow through wireframing and prototyping, contributing to a 15% improvement in user drop-off.
- Tested prototypes directly with internal users and iterated based on findings, reducing support queries tied to booking confusion.
- Extended the redesign's visual language across marketing collateral (web banners, travel packages, brochures, display ads), maintaining brand consistency across channels.

SELECTED PROJECTS

Grandetape E-Learning App · Android

2023

- Role: Lead product designer. Designed the full learner experience onboarding, course navigation, progress tracking, and assessment flows.
- Shipped on Google Play; focused on accessible UI for low-bandwidth users in emerging markets.

Live app: [Google Play Store](#)

Polaris Vulte — Fintech Web App · Web

2023–2024

- Designed the user-facing banking portal, including account dashboard, transfers, and statement views.
- Outcome: Contributed to a 20% reduction in customer service escalations related to digital banking navigation.

Live product: polarisbanklimited.com
